

BURTON

Burton Bark 800 Autorefractor Keratometer

Since 1947, Burton has set the standard for exceptional quality, value, service and support.

Confidently measure your patient with modern cutting edge technology designed to simplify your ability to diagnose ocular errors faster, easier, and accurately.

Burton Bark 800 Features:

- Auto Refractor/Keratometer
- Enhanced Retro-illumination Imaging
- Accurate Measurement of Iris & Pupil Diameters
- Enhanced Measuring Speed
- Comfortable Motorized Chin Rest
- Automatic High Speed Cutting Printer
- Precise Temperature Sensor Compensation
- Simple One Touch Lock Knob
- 20 Touch & Tilt Color Monitor Display
- Sophisticated TFT LCD Graphic User Interface
- Easy Network Capability

The Burton Bark 800 is brilliantly designed technology that measures the eye with ultra-precision and speed to provide reliable data as the starting point for your refraction and contact lens fitting. It's compact and modern design enables seamless operation and enhanced patient comfort, making it the ideal choice for any ophthalmic practice.
