

BURTON

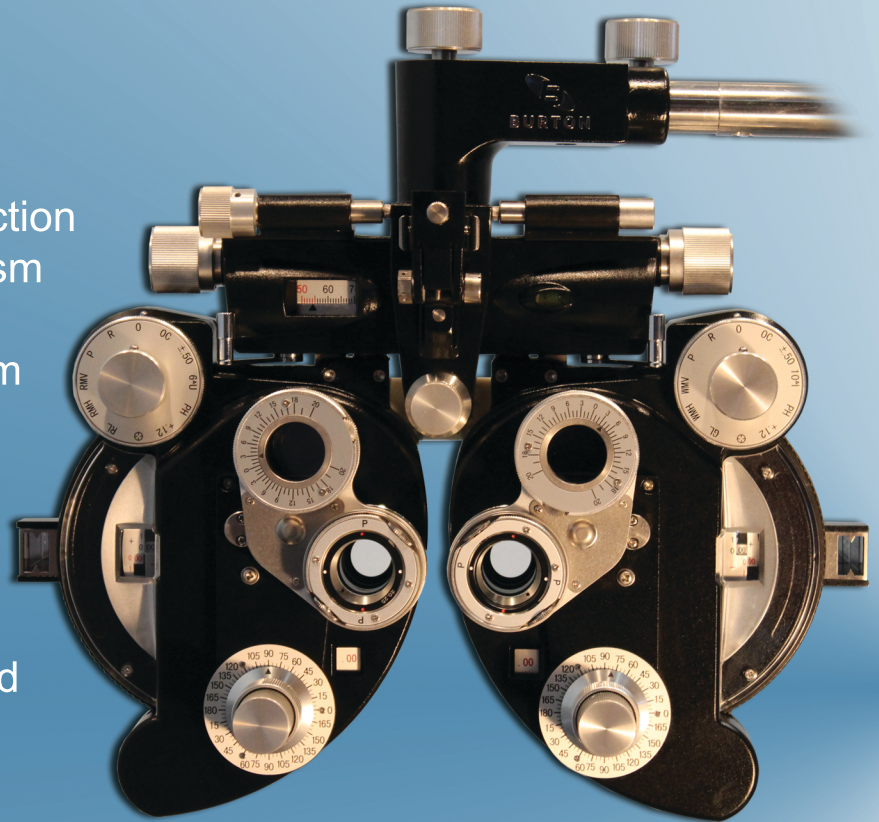

Burton BR8500 Manual Refractor

Since 1947, Burton has set the standard for exceptional quality, value, service and support.

The Burton BR8500 manual refractor provides the perfect blend of style, function, precision and quality.

- Attractive proven design
- Precision excellence in refraction
- Cross cylinder and rotary prism wide field of view
- Employs a unique mechanism in the convergence system
- Greater testing range with the use of auxiliary lenses
- Oil Free bearings provide greater precision & durability
- High-grade coating performed on all lens surfaces

The Burton BR8500 has a proven attractive design and a comfortable feel to make the refraction process more relaxed. All the lenses are coated in high-grade plated film which eliminates any glare or ghost images.
